The following charts are based upon data collected in the past 100 days (or since ClientCare tablets began being used if ClientCare usage is newer).
How often are questions not being asked?

![Bar chart showing the frequency of data collected and skipped questions. The chart indicates that 996 questions were collected, while 349 were skipped. The x-axis represents data categories: 'Data was collected' and 'Skipped Questions'. The y-axis represents frequency, ranging from 0 to 1000.]
How often is weight (or height for new clients) not being measured?

![Bar chart showing frequency of how height weight was obtained.]

- Not reported: 0
- Measured: 1344
- Self-reported: 32
- Refused: 23
The following charts are based upon most recent recertification data collected in the past 365 days (or since ClientCare tablets began being used if ClientCare usage is newer). Each household is counted only once.
Ethnicity

The bar chart shows the frequency distribution of various ethnic groups. The groups are listed along the x-axis, and the frequency is shown on the y-axis. The groups include:

- Not reported
- American Indian or Alaska Native
- Asian/Pacific American
- Black & White
- Black or African American
- Hispanic/Latino
- N/A
- Native American
- Other
- Unknown
- White

The chart indicates that the highest frequency is for Hispanic/Latino with 853 occurrences, followed by Black or African American with 668 occurrences. The rest of the categories have much lower frequencies, with the highest being Native American with 9 occurrences and the lowest being Other, Unknown, and White, each with 1 occurrence.
Age of head of household (person who normally picks-up food)
Household Size

The image shows a bar chart representing household size with corresponding frequency counts.

- Household size: 1, Frequency: 565
- Household size: 2, Frequency: 228
- Household size: 3, Frequency: 168
- Household size: 4, Frequency: 183
- Household size: 5, Frequency: 201
- Household size: 6, Frequency: 149
- Household size: 7, Frequency: 171
- Household size: Not Reported, Frequency: 1

The chart indicates a significant number of households with a size of 1, followed by those with sizes of 2, 3, 4, and 5, respectively. The frequency for each household size is depicted clearly.
Head Educational Attainment

Educational attainment of head of household

- Not reported: 95
- Less than HS: 757
- HS: 513
- Some College or Technical: 215
- College degree or more: 85
Household Educational Attainment through High School

Number of household members with 12th grade education or more

<table>

- >10 years: 13
Health Variables
Smoking

Do you smoke cigarettes

- Not Reported: 51
- Some days: 136
- Everyday: 103
- Not at all: 825

Frequency

0 200 400 600 800

28 / 40
Diabetes

Ever told by dr/nurse that you have diabetes?

- Not Reported: 47
- Yes: 260
- Yes but only during pregnancy: 8
- No: 800
High Blood Pressure (Hypertension)

Ever told by dr/nurse that you have high blood pressure?

- Not Reported: 52
- Yes: 405
- Yes but only during pregnancy: 11
- No: 647
Obesity Measured via BMI

- **Underweight**: 19
- **Normal**: 190
- **Overweight**: 330
- **Obese**: 536
- **Morbidly Obese**: 221
- **Not Reported**: 103

Frequency distribution of BMI categories.
Self-rated Overall Health

- Excellent: 114
- Very good: 88
- Good: 575
- Fair: 504
- Poor: 96

Not reported: 22
Overall food insecurity in household, adjusts for children if data was collected.
Social Support Variables
How many people do you speak with on a typical day?

- Not Reported: 50
- <3 people: 180
- 3-5 people: 256
- 6-10 people: 83
- >10 people: 50
Help with Healthcare Issues?

Is there a place that you usually go to when you are sick or need advice about your health?
Affective Social Support (Client feels they have people to help them)

Social support score for affective support, higher indicates more social support.
